

TLC Interiors & Exteriors Inc. Becomes Certified in Revolutionary "Green Coating"

Jeanne Hall, President of TLC Interiors & Exteriors, Inc., a local and well known Faux Finish Company proudly announces certification in "Aurastone". Much more than a Faux finish, Aurastone is a revolutionary architectural coating that can change virtually any ordinary surface to spectacular stone. A totally green product, Aurastone out performs Granite, Marble, Onyx and other well known and expensive stone, and is FDA approved for homes or in commercial applications. The weight density of Aurastone is minimal in comparison to stone and is perfect for marine or aircraft applications where luxurious finishes are desired but the weight of stone is not. The finished surface is identical to stone, yet out lasts stone, and can be in place on time at a fraction of the price. The process has been perfected in Aurastone where previous applications of other coatings did not meet the stringent heat and durability standards that Aurastone commands. Pictured is Jeanne holding a sample of Solalite Blue, but any stone can be created. Look for TLC's cabinet and

furniture line coming soon, as the perfect compliment to your new Aurastone countertop, back splash, tabletop, floor, etc.

TLC Interiors & Exteriors, Inc. is a surface technique company specializing in high end wall finishes from wall glazing, distressing, and antiquing to faux wood, marble, to real marble finishes i.e.: (Venetian Plaster imported from Italy). As a decorative Faux Painter for over 15 years, I have worked with award winning builders and designers throughout South Florida and the Florida Keys, and trained with American and European Masters of the trade. My work has taken me across the country, the Bahamas and to Europe, and my work has been published in Florida Design, Florida Architecture, and Open House magazines throughout the years. In keeping with my innovative designs suited for the most sophisticated tastes, TLC also offers a total furniture finish line including cabinetry, moldings, trim and architectural details.

"What I really enjoy about what we do is exceeding our customers' expectations and the sheer joy our customers experience when they see the transformation of their home or place of business into the timeless luxury creation they envisioned and TLC brought to life."
